

IMPORTANT ANNOUNCEMENT

Due to further expansion within the Walker Group we have taken the difficult decision to hand the care of our beautiful bees over to another passionate bee keeping family, to ensure the continued wellbeing of our bees as we focus on our other growing projects.

We have had the most fabulous 5 years, creating great recipes and producing the tastiest honey and we want to see this passionate project continue to grow in the direction it deserves.

We will continue to invest into the encouragement of the wild bee population but we will no longer be farming bees or producing honey.

Thank you to all of our customers past and present for supporting this wonderful journey of ours for the last five years which has grown into something we never expected!

Please do contact us directly should you wish to purchase any of our remaining local honey stock whilst it lasts.
